Venue selection

a crucial step

The choice of your wedding venue will take most of your time. Our team offers a dedicated **Venue Hunting** service which is going to help you in finding the perfect place. Once the venue is selected, many other design details fall into place. Your selected color palette should harmonize with and enrich the venue look.

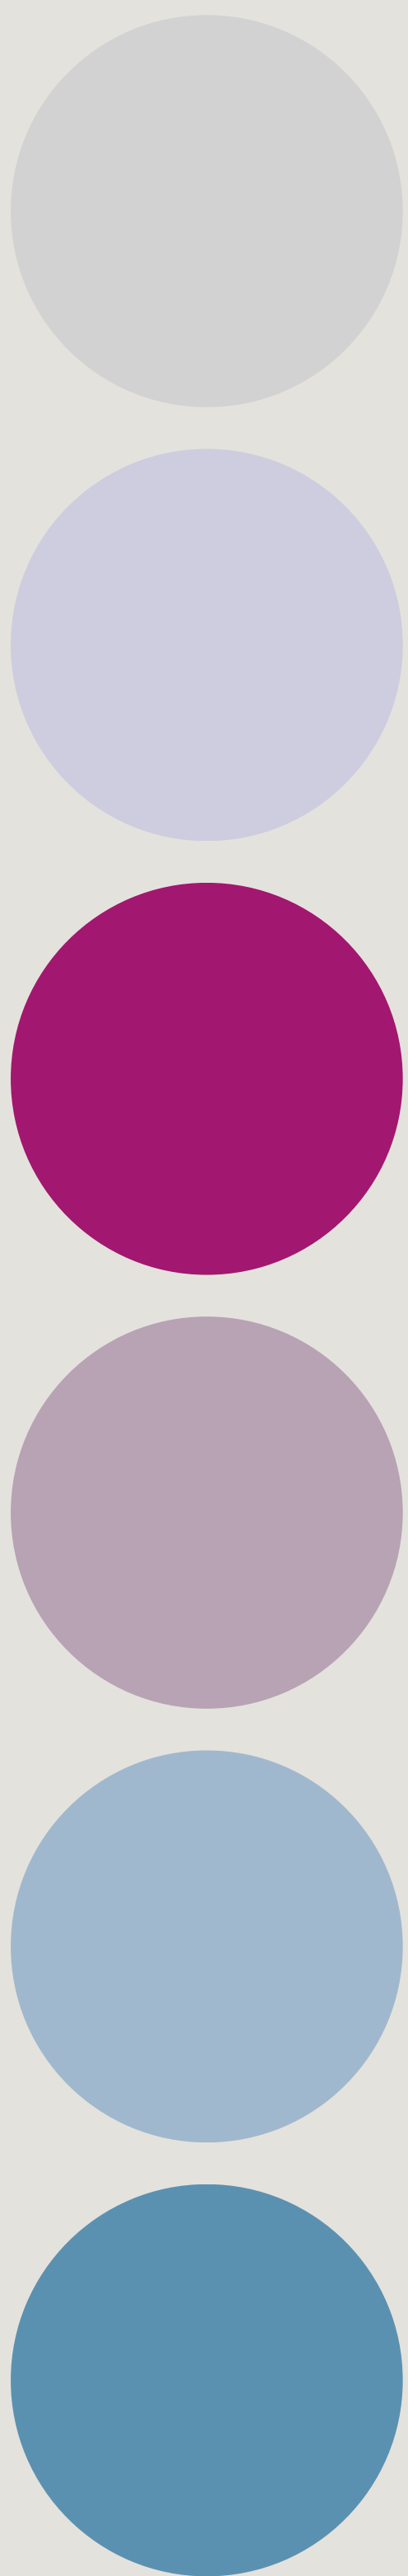

Embrace the season

t h e t i m i n g

The timing of your wedding plays a pivotal role in determining the look of the celebrations. Italy offers excellent weather all year around, however the best periods to get married are from April to June and from end of August to end of October. Dreaming of an Alpine wedding? We did it!

Dress to your theme

the personalization

The color palette you choose should harmonize with you as couple, with the venue, with your bridal party.

If you have decided for a rustic wedding in Tuscany opt for warm and vibrant colours, while for a wedding on shores of the sea in the Amalfi coast better to have more pinkish and bluish colors. Our team can help in designing your **Palette.**

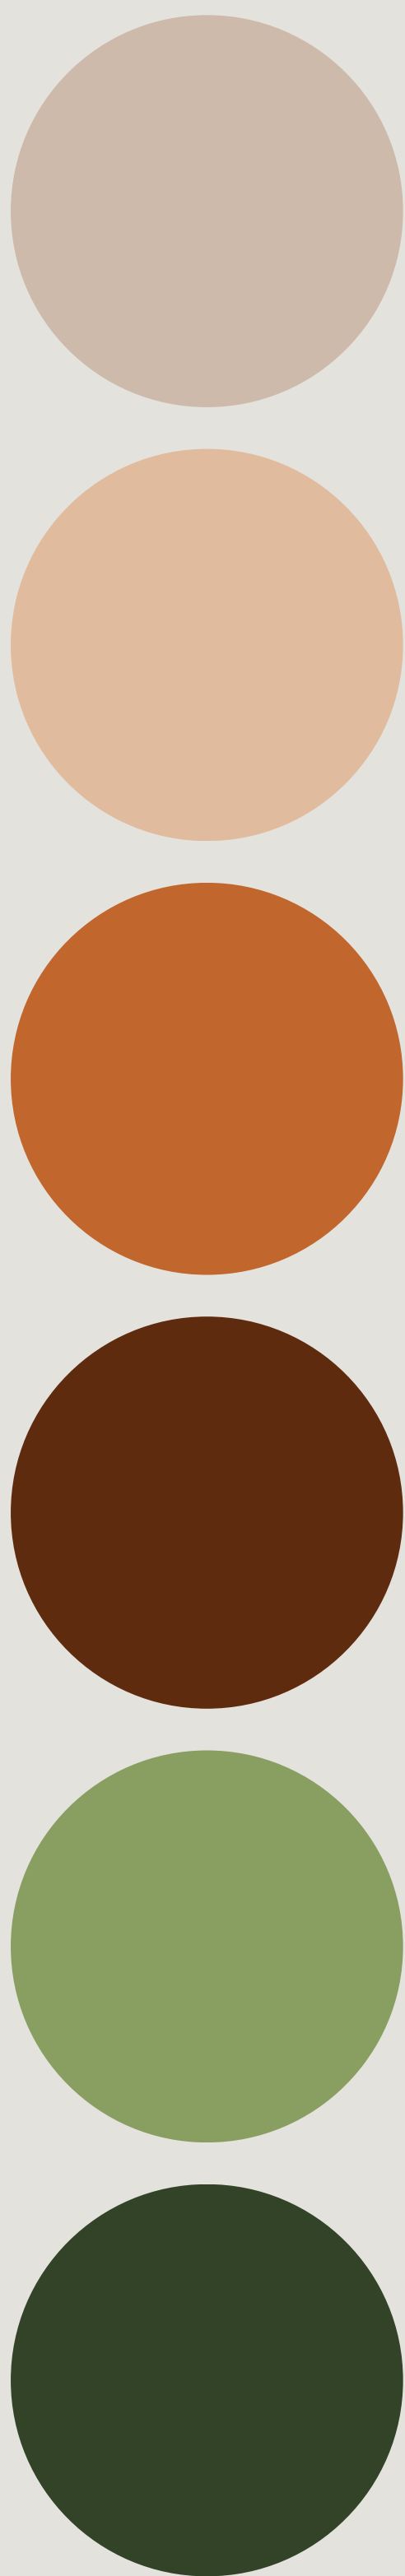

Allocate

your budget

w i s e l y

When it comes to allocating your wedding budget, it is important to prioritize based on what holds significance to you both. If you deeply appreciate long family style tables, well focus on this detail - and maybe you can have a 3 courses meal instead of the typical 5 courses, without limiting the culinary experience that a **wedding in Italy** deserves.
